

# ACCESSORI PER ORNITOLOGIA E ANIMALI

*Accessories for ornithology and animals  
Accesorios por ornitología y animales  
Accessoires pour l'ornithologie et animaux*

## STORIA DELL'AZIENDA

Partner affidabile con oltre 35 anni di esperienza. La 2GR nasce nel 1980 come azienda produttrice di stampi per materie plastiche, per conto terzi. Nel 1985 parallelamente all'attività di progettazione e costruzioni stampi, nasce la linea di prodotti per l'ornitologia che la 2GR inizia a produrre e commercializzare in proprio.

Fin da subito gli articoli 2GR spiccarono per qualità e facilità di montaggio e utilizzo, ma la scelta che si rivelò vincente, fu la ricerca di materiali assolutamente NON tossici. Le esigenze di mercato e la creatività dello staff tecnico consente di ampliare ed arricchire la gamma dei prodotti; il continuo confronto con gli allevatori ci consente un'attenzione progettuale e produttiva costante. Oggi la 2GR è presente in tanti mercati del mondo con oltre 400 prodotti per l'ornitologia, cane, gatto, tartarughe e criceti per il massimo confort dei nostri piccoli amici.

## THE HISTORY OF THE FACTORY

Reliable partner for over 35 years. The 2GR was born on the 1980 as a factory producing moulds for plastic materials on behalf of a third party. In the 1985, together with the moulds' planning and producing activity, the 2GR creates its own ornithology range of products. The 2GR pays attention in choosing non toxic materials, high quality finishing, easy installation and use.

The market needs and the staff's creativity allow 2GR to enrich its range of products; the constant dialogue with breeders gives 2GR the possibility to pay attention to project making and constant production. Nowadays, 2GR is present in many markets around the world with over 400 products for ornithology, cats, dogs, turtle and hamsters and the maximum confort for our little friends.

## HISTOIRE DE LA SOCIÉTÉ

Partenaire fiable avec plus de 35 années d'expérience. 2GR a été fondée en 1980 en tant que producteur de moules pour matériaux plastiques pour des tiers. En 1985, en parallèle à la conception et la fabrication de moules, vient la ligne de produits pour l'ornithologie que 2GR commence à produire et à commercialiser en propre.

La gamme de produits comprend une large gamme d'accessoires pour les oiseaux, comme des abreuvoirs, des mangeoires, des accessoires de transport, des baignoires et des nids; ainsi que des produits pour les petits animaux de compagnie comme les chiens et les chats, les tortues et les rongeurs, tels que des bols, des accessoires de transport, de la litière, des vivariums pour tortues et des cages pour hamsters. Depuis le début, les articles 2GR ont été appréciés pour leur qualité et leur facilité d'installation et d'utilisation, mais le choix qui a fait ses preuves a été la recherche de matériaux absolument non toxiques, une grande attention aux réglementations en vigueur concernant le transport des animaux, ce qui a amené 2GR à être le premier fabricant de produits de transport en plastique pour les oiseaux. Les exigences du marché et la créativité de l'équipe technique permettent d'élargir et d'enrichir la gamme de produits et le contact permanent avec les éleveurs nous permet d'assurer une attention constante dans la conception et la production. Aujourd'hui 2GR est présent sur de nombreux marchés dans le monde avec plus de 400 produits pour l'ornithologie, les chiens, les chats, les tortues et les hamsters pour assurer le confort maximum de nos petits amis.

## HISTORIA DE LA EMPRESA

Un socio fiable mas 35 años. 2GR nace en el año 1980 como empresa especializada en la fabricación a terceros de models para inyección de materia plastica. En 1985, paralelamente a la actividad de proyectar y construir models, nace una linea de productos para la ornitologia.

La empresa 2GR comienza a producir y comercializar productos desde su propia estructura, utilizando materiales no tóxicos, acabados de calidad, praticos y faciles de montar y utilizar.

Con la exigencia del mercado y la creatividad del equipo técnico logramos ampliar y enriquecer la gama de productos, así como la continua relación con los criadores logra que exista una atención y tension proyectiva y productiva constante.

Al día de hoy, la empresa 2GR esta presente en muchos y diferentes mercados del mundo con mas de 400 productos especializados para ornitologia, perros, gatos, tortugas y roedores con el fin de ofrecer el maximo confort a nuestros pequeños amigos.

KLIMANEUTRAL. I nostri clienti possono contribuire alla salvaguardia del pianeta, scegliendo di certificare i propri stampati "Klimaneutral". Il meccanismo che sta alla base della "stampa climaticamente neutrale" è un sofisticato sistema per il calcolo delle emissioni di gas serra che tiene conto di moltissimi fattori: dai materiali all'e-nergia, dagli inchiostri ai solventi, fino alla confezione ai trasporti e allo smaltimento. Grazie a ciò, l'impatto (carbon footprint) dei nostri prodotti viene quantificato in tonnellate equivalenti di CO2 e può essere compensato attraverso l'acquisto e lo scambio di quote di emissione finanziando al contempo eco-progetti a livello inter- nazionale (come ad esempio la costruzione di una nuova centrale eolica).
